

7. When I go onto the IRS website to file my 990-N, our groups EIN# comes up with the PRUBO name. Is this correct or am I doing something wrong?

If you are filing the 990-N (online), it will show with the PRUBO name, not your individual group name that is tied to your EIN. This is because your group is a member of PRUBO (parent group of the exemption). The IRS shows PRUBO on name line 1 in their system, your member name is name line 2. The 990 filing system only shows name line 1. Please don't panic!
